Tell us why you wish to attend Boots on the Ground and how attendance fits into your career goals:

Boots on the Ground is a program created for high school seniors planning to enter the work force upon graduation. Students will get an in-depth look into the Timber Industry by visiting active logging sites, see processors and equipment in action, speak with equipment operators, truck drivers, mechanics, experience a mill tour and speak with potential employers. Upon completion students will receive a voucher worth up to \$500 to help cover the cost of their first pair of work boots upon full-time employment within the Timber Industry.

Space is limited and seniors considering a career in the Timber Industry will be given preference.

Email application to: rrlc@sonic.net
